Comprehensive monitoring and alerts

Allstate Identity Protection's proprietary monitoring system analyzes and detects high-risk activity and sends alerts at the earliest sign of fraud. That's how we help members minimize risk, damage, and stress with prevention and rapid restoration.

KEY FEATURE

Dark web monitoring

We go beyond simply scanning for your information online. We utilize bots and human intelligence operatives together to scour closed hacker forums for members' compromised credentials as well as personal information. We alert members whenever compromised data is found, including:

- Social security numbers
- Government and Medical ID numbers
- Credit and debit card numbers
- Gamer credentials
- Usernames and passwords
- IP addresses
- Email addresses

Financial transaction monitoring

Members can set alerts to trigger from sources including bank accounts, credit and debit cards, account thresholds, 401(k)s, and other investment accounts to help take control of their finances.

High-risk transaction monitoring

Even non-credit-based activity can indicate fraud, so we send alerts for transactions like wire transfers and electronic document signatures matching member information.

Credit monitoring and alerts

Members can set alerts for transactions like new credit inquiries, accounts placed in collections, newly opened accounts, and bankruptcy filings.

Credit assistance

Should a member's credit monitoring trigger an alert, our in-house team of experts will help freeze files with all major credit bureaus.

Social media account takeover monitoring

Members can add social media accounts for themselves and family members to be notified of suspicious activity that may indicate hacking or an account takeover.

Identity Health Status

Our unique tool gives members a snapshot of their identity health and risk level. We provide monthly status updates using an enhanced algorithm with deep analytics to spot fraud trends and alert members before damage occurs.

Fraud resolution tracker

The Allstate Identity Protection Fraud Resolution Tracker makes it easy for members to see their case status.

\$1 million identity theft reimbursement†

Members who fall victim to identity fraud will be reimbursed up to \$1M for stolen funds as well as many out-of-pocket costs related to resolving their case, including:

- Expenses incurred resolving:
 - Home title fraud

 - HSA, 401(k), 403(b), and other investment accounts
 - SBA loans

Lost wallet protection

Members can store critical information in the secure Allstate Identity Protection portal to retrieve in the event of losing credit cards, personal credentials, or documents. We help members access this information and replace it, if needed.

Stolen wallet emergency cash†

In the event that a member's wallet is stolen, we'll reimburse up to \$500 for cash lost.

Solicitation reduction

We make it easy for members to opt in or out of the National Do Not Call Registry, credit solicitations, and junk mail reduction.

Robocall blocker

Our Robocall blocker can help intercept scam and telemarketing calls and texts to require them to identify themselves before you even pick up.

Sex offender notifications

We monitor registries and can notify members if an offender is registered nearby in their area.
